AMAZING TOYOTA

There's been some amazing stories about Toyota landing on my desk since last month's newsletter and I've organised them to be covered in this edition along with some fantastic deals on some great Toyota cars, commercial and 4 wheel drives.

I know you'll appreciate the information and I know you'll enjoy reading about them

INDESTRUCTIBLE LANDCRUISER 100 SERIES ADDS TO THE FEELIN'

Bruman Rigging, a local Garbutt business servicing all the North's needs has delivered a fantastic yarn about their 1998 "Toyota Landcruiser Diesel 100 Series"

"Bruno" purchased this 4x4 from the dealership back then and has, over the years, clocked over 500,000 plus kilometres. What makes this feat even more remarkable is that in the first year he clocked up 100,000 kilometres, but wait for it, over some of the roughest terrain "The Top End" can deliver.

He has crossed deserts during the summer, he has made his way through flooded rivers up to the bonnet, endured "Bull Dust" you can't imagine and has circum-navigated the outback throughout the entire Top End without any down time thanks to Toyota's amazing quality. "This truck has never broken down" says Bruno "we had it serviced at Toyota Dealerships all around the country and apart from some air conditioner work she hasn't missed a beat, she's never had a spanner to her."
